**Importance:** High

I am emailing and requesting to understand and know why the current draft recommendations for the roadmap **do not include any of the LGBTQ Population?** I have examined this and I am quite disappointed to find this out. **Specifically, Strategy element # 22 (on page 29 of the 37 page draft report) sexual orientation and gender identity should be included as a detailed category! By not doing this perpetuates the disparities.**

If I could please have some further understanding of this.

Sincerely
